- 1 Mains Power Connector
- 2 Fuse Box
- 3 On/Off Switch
- 4 HDMI Output (Service Only)
- 5 USB for Backup Drive (USB 3)
- 6 USB DAC output (USB 2)
- 7 Ethernet Input from Router
- 8 Ethernet Streamer Port

- 1 Innuos ZEN / ZENith Mk3 Music Server
- 2 Mains Cable
- 3 2m Ethernet Cable

3 Connect your System to mains power

4 Connect your System to your home network

OPTION A Wired to the Internet Router

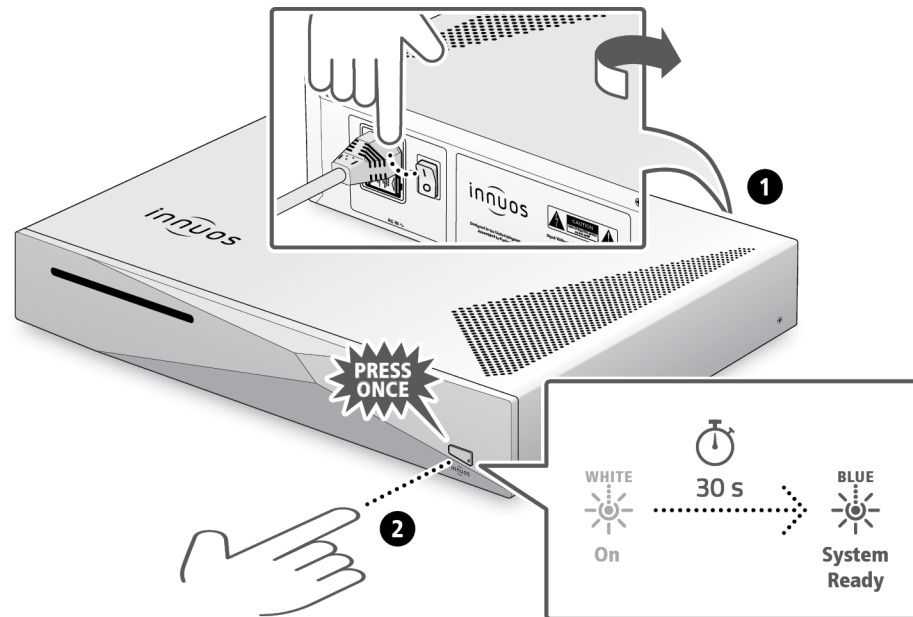

NOTE Optional - Not required for server operation

Ethernet Cable

The Streamer Port provides a wired network connection for streamers, wireless speakers and other network audio products.

Please press and release. Do not hold the front power button down.

OPTION A Rip CDs

Do not push the CD while it is being drawn in as this may cause it to jam or damage the optical drive.

OPTION B Import Digital Music

SETUP A Connect to a DAC/Amplifier via USB

Note: USB Cable not included. Requires DAC compatible with USB Audio Class 2.

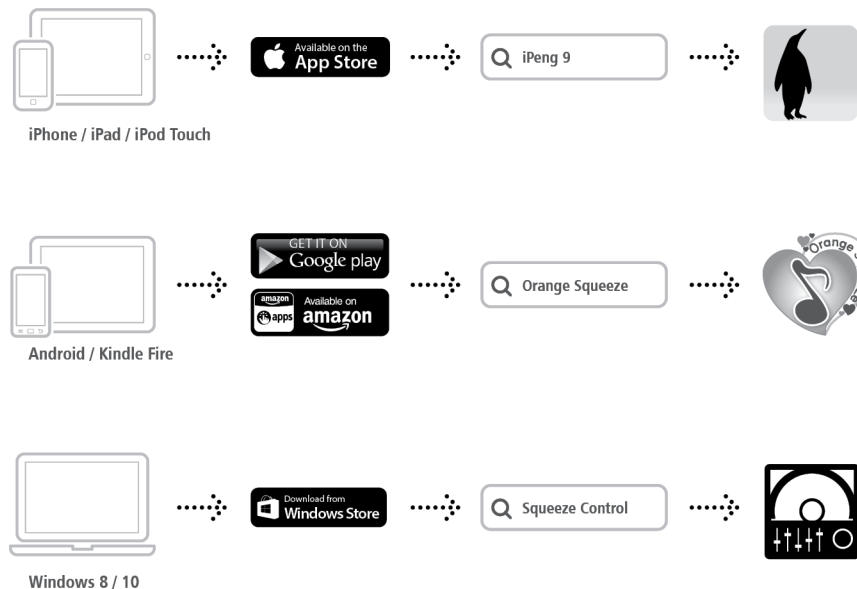

10 Connecting to a UPnP / DLNA system

The UPnP app is provided by the manufacturer of your streamer, ie. Bose, B&O, Naim, Bluesound, etc.

11 Using Player Apps

Recommended Remote Control App

These control apps are to be used when the server is connected as a player by USB.

1 Setup Streaming Services (Optional)

Streaming Apps require a premium account subscription.

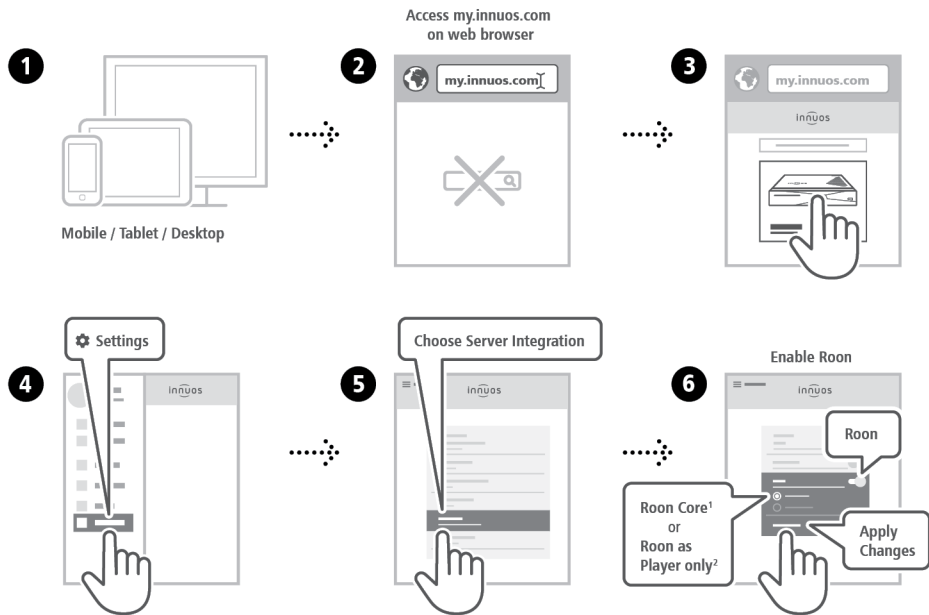

2 Play your music

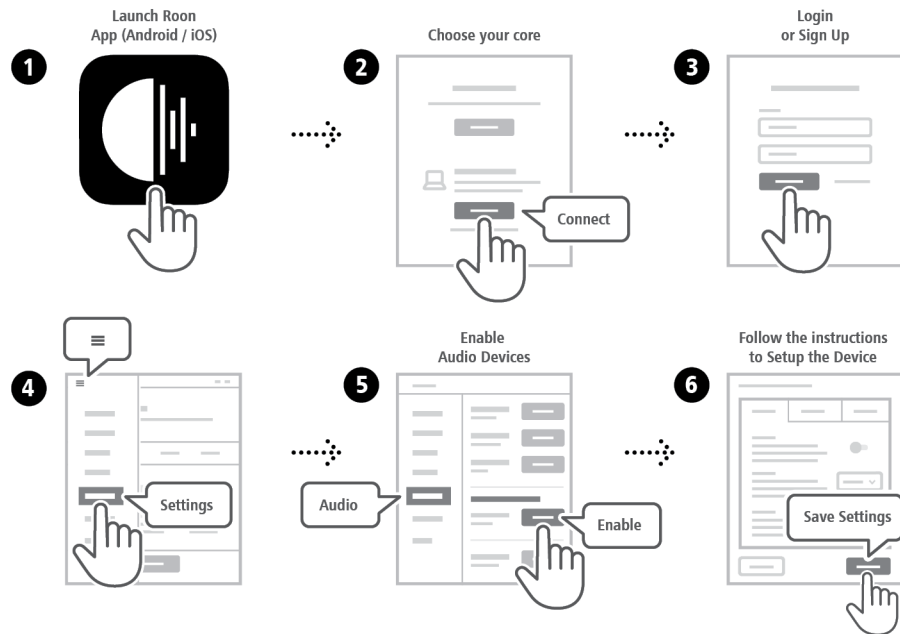

If the server is not found, please contact us at support@innuos.com

1 Enable Roon on innuOS

2 Setup Roon Core

¹**Roon Core:** Select if you want to use this server as Roon Server and Player.

²**Roon as Player only:** Select if you are running Roon Core on another system.

 Please press and release. Do not hold the front power button down.
