

MaiA DS2 - My Audio Integrated Amplifier

Stereo integrated amplifier with 9 inputs & App control

- Dual mono design principle
- Built-in phono pre-amplifier with MM & MC capability
- Other inputs: 3x analogue, 5x digital including USB 2.0
- X MOS asynchronous USB 24bit/192kHz
- DSD capability (DSD64, DSD128; DSD256)
- Superb dual 24bit/192kHz D/A converter PCM1796
- 4th generation Bluetooth with aptX capability & antenna
- Volume control with motor driven potentiometer
- Headphone output with dedicated amplifier stage
- Fixed & variable outputs for subwoofer or second zone amp
- IR remote & Built-in App Remote Control via Bluetooth
- Free Box Control App controls this + other IR equipment
- Optional wooden side panels available
- Available in silver or black

Technical data

Power output	2x 55 W / 95W at 8 / 4 ohms
Signal-to-noise ratio Line/MM/MC	> -90dB / -90dB / -75dB (IEC A-weighted)
Channel separation	> -65dB
THD +N	< 0,07% @ 15W
Frequency response	20Hz - 20kHz (+0,2dB, -2,5dB)
Analogue inputs	3 pair RCA/Cinch sockets line 1 pair phono MM/MC input (RCA)
Input impedance	Line: 50Kohms, Phono: MM 47kohms / MC 100 ohms
Digital inputs	USB B, RCA coax, 2 Toslink, Bluetooth (aptX)
D/A converter	TI PCM1796 Delta-Sigma
Speaker connectors	4mm Ø banana plugs, spades connectors or naked wire
Headphone output	6,3mm jack
Headphone impedance	16 - 600ohms recommended
Analogue outputs	RCA fixed, RCA variable, RCA subwoofer, power amp, 6,3mm headphones (front)
Power supply	36V/5,5A DC; 100 - 240V, 50/60Hz
Standby Power consumption	< 0,5W
Dimensions W x H x D	206 x 68 x 150 (165mm with sockets)
Weight	2100 g without power supply

MaiA DS2: A new generation stereo amplifier with superior sound, App control & future-proof technology!

This small integrated amplifier offers outstanding audio quality and ultimate input flexibility with all digital and analogue input options you can dream of. Superior tube-like sound and a high-class 24bit/192kHz D/A converter stage are combined in a perfect way. Despite its small size, 9 (!) source devices can be connected simultaneously. MaiA DS2 is one of the most versatile products on the market, it offers analogue phono and line as well as digital inputs such as lossless streaming via aptX Bluetooth! Five analogue outputs leave no desire unfulfilled. MaiA DS2 is future-proof and can be upgraded with Power Box MaiA DS2 for almost double power. Power Box MaiA DS2 acts as „One power supply“ solution and powers up to 5 Pro-Ject products, like CD, Streamer and turntable. Control via IR remote or App makes usage a piece of a cake. The sandwich aluminium / metal casing is aesthetically pleasing and protects effectively against interferences. MaiA DS2 is available in silver or black with optional wooden side panels.
