

RANGE : *BOREA*

MODEL: *BR08*

The floorstander BR08, inspired by the iconic Antal speaker, was the reference model throughout the design of the Borea range. Elegant three-way floorstander with 4 transducers, it is one of the most appreciated high-fidelity models.

It incorporates a new 25mm EFS silk dome tweeter; a new 16cm midrange with a brand-new profile, based on the research on the natural cellulose paper used before in the Esprit Ez; and two new 16cm bass drivers in fiberglass.

Its three-way configuration diffuses all frequencies with no interference between the transducers, producing precise voices and instruments.

This floorstander will fit perfectly in rooms ranging from 20 to 40m<sup>2</sup>.
